## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 1-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. Claims 1-26 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: between each of the first and second light beams and the polarization wave; between each of the first and second optical gain elements and the nonlinear optical element; between the mixing means and the gain means; and between the third light beam and each of the first and the second light beams.

4. Claim 3 recites the limitation "said electrodes" in line 1. There is insufficient antecedent basis for this limitation in the claim.
5. Claim 20 recites the limitation "the polarization wave" in the last two lines. There is insufficient antecedent basis for this limitation in the claim.
6. Claim 22 recites the limitation "said electrodes" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 2828

7. Claim 23 recites the limitation "said... second gain elements" in line 3. There is insufficient antecedent basis for this limitation in the claim.

***Allowable Subject Matter***

8. Claims 1-26 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
